

## MY HOOPLA HISTORY

You can access and print your Hoopla borrowing history to see a list of the books you've read by following these steps:

1. Sign in to Hoopla: Open the Hoopla app on your device or go to the Hoopla website in your web browser.
2. Go to "My Hoopla": Look for "My Hoopla" at the top of the page (website) or in the app's menu.
3. Select "History" or "Borrowed":
  - On the website, click on "History".
  - In the app, select "Borrowed".
4. View your complete history: You might see your most recent checkouts first. Look for an option like "Show Complete History" to see the full list of titles you've borrowed.
5. NOTE: THESE INSTRUCTIONS WILL VARY ACCORDING TO YOUR ACCESS TO PRINTING: Print the page: Once you have your complete borrowing history displayed, you can use your browser's print function (usually accessible through the "File" menu or by pressing Ctrl+P on Windows or Command+P on Mac) to print the page.

Please note that this will show you all titles you have borrowed through Hoopla, not just books. You can choose to print the full list or select the relevant sections if you're only interested in books.
